What is OrangeConnects?

OrangeConnects is a web-based navigation platform designed to connect Orange County Citizens of all ages with relevant behavioral health providers based on a brief assessment that captures individuals unique needs and preferences.

What are behavioral health services?

Behavioral health services help people with mental health and substance abuse challenges and include supports such as counseling, case management, psychiatric care, support groups, peer mentoring and more!

How does OrangeConnects work?

- Residents (or their guardians/caretakers) will begin by completing a brief behavioral health online assessment at www.OrangeConnects.com
- OrangeConnects will use the assessment results to create a list of recommended services.
- Residents will then select which services they would like to connect with by submitting a referral request through OrangeConnects.
- Once the referral is submitted, providers will receive a notification that includes the assessment results, residents contact information and basic demographics, which they will use to establish services.

How do I access OrangeConnects?

OrangeConnects is an online referral site that can be accessed by visiting www.OrangeConnects.com or clicking on the link above. It can also be downloaded through your Apple or Android mobile device or tablet.

Will my personal information be protected and remain confidential?

OrangeConnects follows all guidelines to keep your personal information confidential. Only the service providers that you designate for yourself or your child will receive your personal information. The platform meets all standards for security and safety as designated by federal and state law.

To visit our website, go to www.OrangeConnects.com. If you have any trouble logging on have additional questions, email support@thespiritproject.com
